

21 March 1984

MEMORANDUM FOR:
RMO, DCI

FROM :
History Assistant

SUBJECT : TRIS System Requirements

STAT

STAT

1. At the present time, the History Staff is not designed to operate as a formal registry and therefore it is unlikely that we will make use of the TRIS registry system. Should the History Staff holdings be automated at a future date, TRIS could be adopted at that time.

2. We would like to receive one copy of the TRIS Users Manual for reference purposes.

3. We will continue to use RAMS and/or ARCINS and the replacement system for TSCADS.
